EXPERIENCE

DMI, Inc. • San Francisco, CA • July 2014 - Present
UI Developer

Front-end team member in charge of creating page layouts and interactive elements for fully customized e-commerce websites for Fortune 500 clients. We use the Oracle ATG platform and JSP with HTML, SASS or LESS, jQuery, NodeJS, AJAX and Mustache.js, for multi-breakpoint responsive layouts using a custom Foundation-based grid system.

Our project team uses the agile development technique with daily scrum stand-ups.

General Assembly • San Francisco, CA • Sept 2013 - Dec 2013
Web Development Immersive Enrollee

Member of General Assembly's 3-month full stack coding bootcamp September 2013 cohort, promoting fluency in Ruby on Rails and JavaScript with a detailed focus on developing, testing and deploying production grade web apps.

Airbnb • San Francisco, CA • Feb 2014 - Jun 2014
Copywriter, Content

In charge of copywriting and creating content for the Airbnb blog, email and various marketing campaigns. Attending and contributing to pitch meetings for the Airbnb editorial calendar.

AirTreks, Inc. • San Francisco, CA • May 2006 – Sep 2013
Sales, Social and Content Marketing

SEO on company web properties, content creation and copywriting, marketing strategist. Booking complex around-the-world itineraries, specializing in multiple major airline computer GDS languages.
